

EWES Sound Fastener

Brings silence to a noisy world

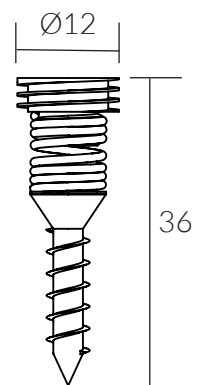

NOISE REDUCTION WOOD SCREW

For wood studs and 12,5 mm single plasterboard

EWES SoundFastener is a sound resilient drywall screw for wood studs. The screw is fastened into single 12.5 mm plasterboard.

Applications: For rooms adjoining equipment rooms, conference rooms, laundry rooms, children's rooms, and similar. The Sound Fastener screw efficiently reduces any ambient noise such as footsteps, talking and so on.

Measured effect: Halves the perceived noise level by reducing noise by 9 dB. Tested by RISE Research Institutes of Sweden AB.
